

## **Terms of Participation**

Doctoral students who have completed or will complete their degrees in 2016 are welcome to apply. The institution granting the applicant's PhD must be located in Europe, the Middle East, or Africa. The applicant's own nationality has no influence on eligibility.

Doctoral students are eligible for the EMAC / Sheth Foundation Doctoral Dissertation Competition – whether their dissertations have been published or not. In other words, publication is not necessary, but also does not represent a disadvantage to any entrant.

**To be eligible for consideration, all application materials must reach EMAC before or on January 27, 2017 (midnight CET Time).**

No individual can apply for the award more than once or submit more than one topic for consideration.

Selection committee's decision is final, and entrants have no legal recourse.
